Existing law requires the State Contractors' Board to issue a contractor's license by endorsement to an applicant who meets certain requirements, including, among other requirements, the requirement to: (1) submit to the Board proof of a contractual agreement to perform work on an attainable housing project in a rural area for which a contractor's license is required; and (2) hold a valid and unrestricted contractor's license in the District of Columbia or any state or territory of the United States and the Board determines that the qualifications for that contractor's license are substantially similar to the requirements for the issuance of a contractor's license in this State. Small Business Impact Statement

EFFECTIVE DATE OF REGULATION:
Upon filing with the Nevada Secretary of State
Proposed Regulation R046-25

1. Background:

NRS 624.220 authorizes the board to adopt regulations necessary to affect the classification and subclassification of contractors in a manner consistent with established usage and procedure as found in the construction business and to set limits on the field and scope of the operations of a contractor as may be necessary to protect the health, safety and general welfare of the public.

During the 2025 legislative session, AB 540 was passed which requires under certain circumstances the Nevada State Contractors Board issue Licenses by Endorsement or Provisional Licenses to certain persons to perform work on attainable housing projects in certain rural areas.

2. Description of Solicitation:

The proposed regulation change adds language to the Nevada Administrative Code to coincide with the new bill passage of AB 540 for the classifications of a Contractor's License by Endorsement and Provisional Contractor's License.

3. Does the proposed regulation impose a direct and significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business?

The Nevada State Contractors Board has determined that the proposed amendment should not have a negative financial impact upon a small business. The proposed regulation is not expected to negatively impact the formation, operation, or expansion of a small business in Nevada.

4. How was that conclusion reached?

The NSCB determined that the proposed changes are specific to how the NSCB itself operates and do not impact small businesses.

In reviewing the regulation changes, the NSCB found no evidence of negative economic effects on current NRS Chapter 624 licensees or individuals seeking licensure.

I, David Behar, Executive Officer of the Nevada State Contractors Board, certify that, to the best of my knowledge or belief, a concerted effort was made to determine the impact of the proposed regulation on small business, and that the information contained in the statement above is accurate.
